

IRB-78DT

Interactive White Board

Intelligent Series

The Spectron IRB-78DT is a technologically advanced product in the Intelligent Series line. The interactive white board features Dual Touch technology that enables two users to write and draw simultaneously. Users can switch seamlessly between writing, drawing and moving objects with a finger, stylus or even a pointer. The board easily connects to a computer through a USB interface or optionally with wireless technology. The IRB-78DT also features anti glare scratch resistant durable surface and is an ideal tool to increase engagement and collaboration within any educational, corporate or professional teaching or training environment.
