GREEN CHALK BOARDS: Green Chalk Boards are used for writing with chalk in educational institutes. Green Boards are the most modern and latest product in the education sector which replaces the age old black chalk boards or glass boards. Green Chalk Boards has various advantages like healthy for eyes, creates less dust, negligible reflection, psychologically better for students, unbreakable etc are the advantages of Green Chalk Boards. These Green Chalk Boards are available in various ranges to suit your budget and specific needs. We manufacture A-grade quality Green Chalk Boards as per standards and these boards can be availed from us at cheapest prices.

Ceramic Steel Green Chalk Boards

(Premium Range)

These Board has as a very high surface hardness and good abrasion and scratch resistance. It comes with porcelain fused surface at 800 degree Celsius. The matt surface provides excellent writing with minimum pressure and provides easy cleaning. The surface is scratch resistant, rust, fire, water and fungus proof. Negligible reflection occurs with maximum refraction of light which helps the boards to be seen from a wide range of angles and also from a good distance and so the board can also be seen from the last row of the classroom. Twenty five years warranty is provided on the writing surface

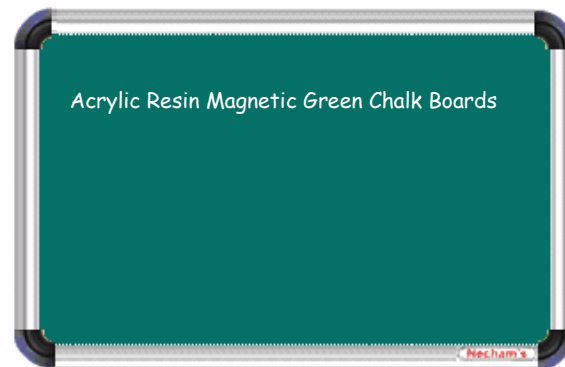

Ceramic Steel Magnetic Green Chalk Boards

Resin Magnetic Green Chalk Boards

(Standard Range)

These Magnetic Green Boards comes with a Acrylic Porcelain Based coating which makes the surface better scratch resistance. Economical than ceramic green boards these Green Chalk Boards can be used in any educational institutes for regular writing purposes. The surface has magnetic capability that is it accepts magnets and is a non fading surface. The surface permits smooth writing and easy cleaning. The surface is such that it remains as factory finish even after long term usage.

Acrylic Resin Magnetic Green Chalk Boards

Non - Magnetic Green Chalk Boards

(Economy Range)

Our Non Magnetic Green Chalk Board comes with high pressure melamine coated surface. Extra melamine coated surface for greater life. These Green Boards are very economical and can be used for regular writing purposes. These Green Chalk Boards are ideal for every educational organization for economical regular writing purposes.

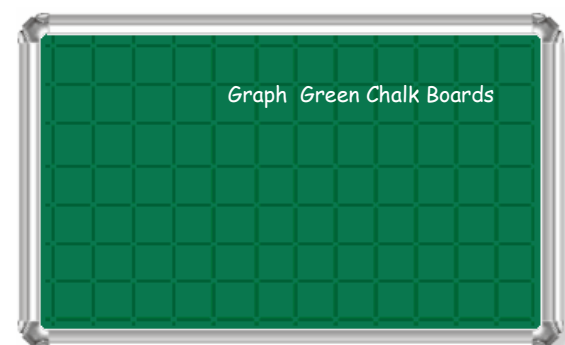

Non Magnetic Green Chalk Boards
