**WHITE BOARDS:** White Boards are used for writing with dry wipe marker used in offices, factories, educational institutes. White Boards are available in various ranges like Ceramic, Magnetic, & Non Magnetic types which supports magnets and magnetic accessories and on which projection can also be done and therefore helps you to make presentation better. These White Boards are available in various ranges to suit your budget and specific needs. We manufacture A-grade quality White Boards as per international standards and these boards can be availed from us at cheapest prices.

#### Ceramic Steel White Boards

(Premium Range)

These Board has as a very high surface hardness and good abrasion and scratch resistance. It comes with porcelain fused surface at 800 degree Celsius. The matt surface provides excellent writing with minimum pressure and provides easy cleaning. The surface is scratch resistant, rust, fire, water and fungus proof. Negligible reflection occurs with maximum refraction of light which helps the boards to be seen from a wide range of angles and also from a good distance and so the board can also be seen from the last row of the classroom. Twenty five years warranty is provided on the writing surface

#### CERAMIC STEEL WHITE BOARDS

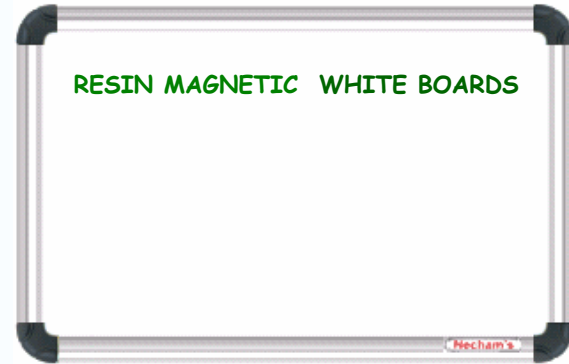

#### Resin Magnetic White Boards

(Standard Range)

These Magnetic White Boards comes with a Acrylic Resin Based coating which makes the surface scratch resistance. Economical than ceramic green boards these White Boards can be used in any educational institutes for regular writing purposes. The surface has magnetic capability that is it accepts magnets and is a non fading surface. The surface permits smooth writing and easy cleaning.

#### RESIN MAGNETIC WHITE BOARDS

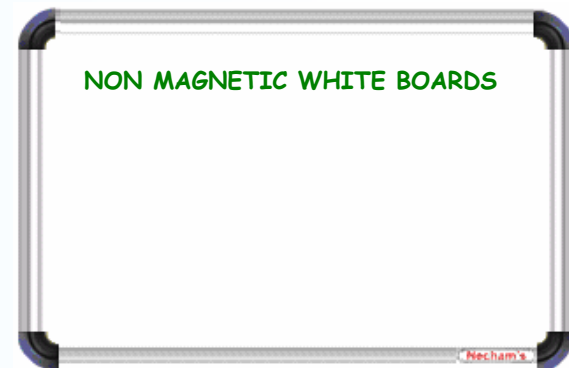

#### Non - Magnetic White Boards

(Economy Range)

Our Non Magnetic White Board comes with high pressure melamine coated surface. Extra melamine coated surface for greater life. These White Boards are very economical and can be used for regular writing purposes. These White Boards are ideal for every educational organization for economical regular writing purposes.

#### NON MAGNETIC WHITE BOARDS

#### Graph White Boards

(Available in all ranges)

We manufacture White Graph Boards which comes with geometrically perfect graphs of graph size 2" x 2" . Available in all range of White Boards our graph boards are available in both etching and printed type. White Boards with one side Graph and one side plain White also available.
